

2018 TOW SPORTS WAKE™ 155

The adrenaline pumping WAKE 155 is perfect if you're looking to spend your days carving wake and towing friends. This model includes a retractable ski pylon with a high tow point that keeps the rope out of the water, an exclusive Ski mode, and a removable board rack.

RIDER CAPACITY

Weight capacity 600 lb / 272 kg

DIMENSIONS

Fuel capacity	15.9 US gal / 60 L
Length	132.6" / 336.8 cm
Width	48.5" / 123.1 cm
Weight (dry)	718 lb / 326 kg
Storage capacity	30.8 US gal / 116.6 L

ENGINE

Type	Rotax® 1503 NA 4-TEC®
Intake system	Naturally aspirated
Displacement	1,494 cc
Cooling	Closed-Loop Cooling System (CLCS)
Reverse system	Electronic iBR®
Starter	Electric
Fuel type	87 octane

Teal Blue Metallic / Lava Red

HULL

Type	GTI™
	• Medium-sized platform
	• Moderate V hull
	• Forgiving and nimble

SKI MODE

RETRACTABLE SKI PYLON

WAKEBOARD RACK¹

REBOARDING LADDER

VARIABLE TRIM SYSTEM (VTS™)

CGX2 CAMERA (ACCESSORY)

ENGINE

1,494 cc four-stroke, Rotax® with three cylinders in-line and four valves per cylinder

iTC™ (Intelligent Throttle Control) System

Reboarding Ladder

RF D.E.S.S.™ Key

Interactive Multifunction Digital Information Center

Handgrips with Palm Rest

Sponsons

Bumpers

Wide-Angle Mirrors

Footwell Carpets

Seat Strap

Rear Grab Handle

The most powerful, naturally aspirated Rotax® engine on a Sea-Doo® offers instant acceleration for instant fun. Tested and proven to be incredibly reliable and fuel-efficient for more than a decade.

Operating electronically, this advanced throttle system starts you in neutral for easier dockside starts. It also features activity-specific Touring, Sport and ECO® modes that can all be set to accommodate your riding style. The result is a more responsive, more intuitive ride.

The programmable Learning Key allows you to limit the performance of the PWC based on rider skill-level.

Combines a series of resonators and vibration-absorbing components to make Sea-Doo® watercraft some of the quietest on the water.

Uses coolant to keep the engine running at the ideal temperature, much like a car's radiator. Also keeps out corrosive saltwater and debris.

The hull is made of Polytec™ material, a recyclable, low density and high-impact composite material that includes polypropylene and long glass fiber reinforcements. It was designed to maintain the structural integrity of the watercraft under stress while providing light yet durable parts to support the construction of the product.

The "Brain" that integrates and controls all systems to create the best possible ride.

Offers a choice between two throttle responses for different riding styles. Touring mode is the default setting offering a more progressive acceleration curve for a more confident ride – ideal for cruising and 2-up riding. Sport mode can be easily activated using the Sport button. It provides full acceleration performance for a more aggressive throttle response.

This iTC™ function automatically determines the most economical power delivery and sets the optimal RPM for greatest fuel economy.

Comfortable room for three – permits rear-facing spotter for watersports.

Easy access and prevents water intrusion while refueling.

Makes reboarding from the water easier and quicker.

With radio frequency technology and a ball-and-socket design, the Digitally Encoded Security System (D.E.S.S.) key provides riders with easy and quick starts every time.

Cruise control, Slow mode, VTS™, Fuel consumption instant & average, Fuel level, Tachometer, Speedometer, Hour meter, Compass, Clock, Touring mode, Sport mode, ECO® mode, F-N-R indicator and more.

¹ Wakeboard not included. ² Based on BRP internal testing.

WAKE 155

PROPULSION SYSTEM

iBR® (Intelligent Brake & Reverse) System

Stainless Steel Impeller

First and only true brake on a watercraft recognized by the U.S. Coast Guard for improving boating safety since 2009. Now in its 3rd generation, the intuitive and improved iBR® allows you to stop close to 160 feet sooner² for greater peace of mind. All with the squeeze of a lever. And with its electronic reverse, it gives you a level of maneuverability that makes docking easier.

Delivers improved acceleration, higher top speed and less cavitation.

WAKE PACKAGE

Speed-Based Ski Mode

This advanced iControl® feature allows the driver to adjust the intensity of the launch for different rider skill levels and tow sports while maintaining a constant speed. You get 5 acceleration profiles for the best possible tow sports experience.

3-Position Retractable Ski Pylon

Enjoy a higher tow point thanks to the retractable ski pylon that stows away when not in use. Features spotter handgrips and rope storage.

Removable Wakeboard Rack

Provides easy transport of a wakeboard to the ride site.

Variable Trim System (VTS™)

The VTS™ adjusts the angle of the nozzle to change the behavior of the watercraft and improve parallelism to the water.
